RIFLE GRIPS

HUMAN ENGINEERED FOR COMPETITION HUNTING

POLICE / MILITARY

www.ERGOGrips.NET

THE ORIGINAL ERGO GRIP

The original Ergo Grip, developed by Steve Hines, was the first truly ergonomic, shooter focused grip for AR platform rifles. Designed for performance by creating a better interface between the shooter and firearm, the Ergo Grip is the standard by which positive grip and shooter comfort are measured. The Ergo Grip comes with the patented Gapper™ (page 11) for increased comfort.

RIGID

4015-BK

- Fits AR-15 type firearms in .223 and .308
- Ergonomically correct finger grooves
- Integrated rear upper extension supports the web of your hand
- AT Aggressive texture improves weapon control
- Virtually impervious to oils and solvents
- Over molded SUREGRIP material
- Comes with The Gapper™

*DUAL USE COMPATIBLE WITH SHOTGUN ADAPTER #4453 AND #4454

ERGO 2 AR & SCAR

The Ergo 2 shows Ergo Grip's dedication to shooter focused accessories. Developed in response to requests for an Ergo Grip with an A2 cavity, the Ergo 2 accepts common tools and accessories designed to fit in an AR-15 grip. The Ergo Grip comes with the patented Gapper™ (page 11) for increased comfort.

ERGO TACTICAL DELUXE GRIPS

Ergo Grip products focus on the shooter. The Tactical Deluxe is no exception. Designed with shapes and contours to fit the human hand, the Tactical Deluxe is a larger, more rounded grip for exceptional comfort and control. The ergonomically enhanced Tactical Deluxe Grip fits 5.56 and .308 rifles.

- Fits AR-15 type firearms in .223 and .308
- Over molded Suregrip material with heavy texture
- Ambidextrous palm swell
- Fits medium to large hands

TACTICAL DELUXE WITH PALM SHELF

The Tactical Deluxe with Palm Shelf takes comfort and control to a new level. It has the same shape and size as the Tactical Deluxe, but features a rest on the bottom of the grip to support the hand, allowing better trigger control. In particular this grip configuration excels on precision rifles. The ergonomically enhanced Tactical Deluxe Grip fits 5.56 and .308 rifles.

- Same grip features as our original ERGO Grips, but in a heavier textured design to fit large AR/M4 rifles, with a rear upper web support
- Ambidextrous palm swell provides shooters with proper trigger finger placement
- Adjustable palm shelf for strong hand support and trigger control

ERGO MSR GRIPS

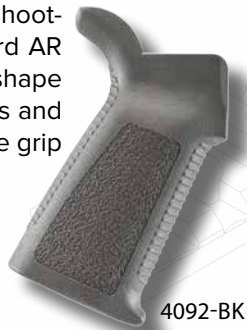

The Ergo MSR Grip, for Modern Sporting Rifle, is perfect for shooters looking for an easy, bolt on upgrade for their standard AR grip. A significant improvement over the A2 style grip, the MSR shape and texture provide better control and comfort. Custom textures and patterns are available for rifle manufacturers looking for a unique grip of their own.

- Ergonomic shape and texture for excellent control and comfort
- Custom textures available for rifle manufacturers
- Integral rear upper extension supports the web of the shooter's hand
- Patent Pending

4095-DE

4095-BK

4095-DE

GAPPER™

\$4.00 4085

\$19.00 4085-6PK

Fills the gap between the trigger guard and the pistol grip on the AR/M4 and cushions your knuckle, prevents abrasion to your finger and provides a more finished look to your rifle. The GAPPER™ is made from solvent resistant Santoprene®, clips in easily, and secures with a tight friction fit. Patent # 6,434,874

A2 PISTOL GRIP PLUG

\$5.00 4933

Designed to plug the cavity on the bottom of a standard A2 grip, this press fit plug is secured by friction. The plug prevents debris from lodging in the cavity of the grip and functions as a shock absorbing pad to protect the grip when setting the rifle down on hard surfaces.

VERTICAL FORWARD GRIPS

ERGO MINI-MAX VFG

This VFG is the most versatile available. As well as serving as a traditional vertical forward grip, it is small enough to be used like an angled forward grip, or even as a forward hand stop. Very sturdy design.

XPRESS LEVER VFG

- All aluminum vertical forward grip with grooved grip area
- XPRESS lever mount and thumb screw for quick attachment and removal from Picatinny rails
- Length 3"
- Weight 4.6 ounces
- Grip comes straight off so removal does not require removal of other rail mounted accessories

*COMPATIBLE WITH SHOTGUN TRI-RAIL FORENDS

\$85.50

4271-BK

ERGO STRAIGHT BROOM HANDLE VFG

This traditional VFG is comfortable and rugged. A durable hard plastic core is over molded with rubber and bolted to an aluminum base. Available with either the Ergo Express lever system, or with a base that bolts directly to military style AR-15 two piece hand guards. A storage compartment with a threaded cap is standard.

- Features an over molded rubber grip attached to durable anodized base with steel bolt
- The threaded cap seals the storage area, each comes with a foam insert
- XPRESS Mount model attaches to Picatinny rails without removing other rail accessories

www.ERGOGrips.NET

ERGO RAIL SYSTEMS

ERGO M4 FORWARD RAIL SYSTEM

This is a stand-alone forward quad Picatinny rail system for AR-15/M4 pattern rifles with a standard A1/A2 front sight base. The M4 Forward rail clamps to the sight base without any modification to the rifle or existing hand guards.

4850

\$96.00

- Stand-alone forward rail system for AR/M4 weapons with a standard A1/A2 front sight base
- Allows for attachment of Picatinny rail mounted accessories forward of the front sight base
- Provides extended hand hold opportunities for shooters
- Installs onto A1/A2 front sight base, locking inside the front sight - requiring NO modification to firearm
- Includes Black ERGO LowPro Rail Covers
- Weight: 8.7 ounces

ERGO Z-FLOAT RAIL SYSTEM

More than just a standard quad-Picatinny Rail, the Ergo Z Float Rail is engineered for maximum performance for both the shooter and the rifle. This two-piece system is thinner than it is tall, making it lighter weight, more compact and easier to grip than other quad rail systems. Available in mid-length, carbine length and pistol length.

TWO PIECE FREE FLOAT STYLE HANDGUARD RAIL SYSTEM

- Two piece 6061 T6 hard matte black anodized aluminum construction
- Thinner profile for enhanced forward control
- Easy installation without removing barrel
- Black hard anodized finish
- Includes Black ERGO LowPro Rail Covers
- Requires removal of delta ring
- Compatible with Adams Arms and similar piston systems

ERGO Z RAIL SYSTEM

The ERGO Z Rail™ Replacement handguard is engineered to provide shooters with an easily installed upgrade for their carbine length AR/M4 weapons systems. Ideal for shooters who prefer a thin profile, lightweight, less permanent installation; this precision crafted mounting platform replaces carbine length handguards without modification.

TWO PIECE REPLACEMENT HANDGUARD RAIL SYSTEM

- Two piece 6061 T6 hard matte black anodized aluminum construction
- Thinner profile for enhanced forward control
- Black hard anodized finish
- Includes Black ERGO LowPro Rail Covers
- Compatible with Adams Arms and similar piston systems

\$181.00

ERGO KEYMOD FORWARD RAIL SYSTEM

A KeyMod Forward Rail system for carbine style AR rifles. Designed for shooter comfort and performance, this new Forward Rail is a KeyMod quad system that bolts to and extends forward of an A2 front sight base without modification to the rifle or existing handguards. This allows mounting KeyMod accessories or Picatinny rail sections forward of the front sight, leaving more space on the handguards for better handling and control of the rifle.

- KeyMod forward rail (KFR)
- Mounts to A-2 front sight
- Black Anodize 6061-T6 Alum

4237

\$138.50

ERGO KEYMOD ULTRA-LITE SLIM RAIL SYSTEM

The Ultra Lite S KeyMod handguard is a definitive upgrade for any AR carbine that uses a two piece handguard. Simple, drop in replacement with no gunsmithing required. CNC machined from 6061-T6 aluminum, these handguards feature a top Picatinny rail and KeyMod slots on the sides and bottom. The Ultra-Lite is also ultra-slim and weighs less than standard plastic hand guards.

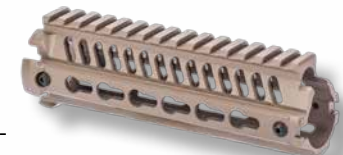

- Aluminum drop-in replacement KeyMod hand guards for AR carbines
- The ultralight design, 4.9oz, weighs less than standard military M4 plastic hand guards
- The ultra slim profile measures only 1.95" in height and 1.6" in width
- KeyMod slots on both sides and bottom for mounting accessories as needed
- Integral top MIL-STD 1913 Picatinny rail
- Includes one black ladder rail cover to protect the top rail and for shooter grip and comfort
- Machined from 6061-T6 aluminum
- Hard coat anodized matte black
- Available with Cerakote™ in either Dark Earth or Olive Drab

ERGO ALUMINUM KEYMOD U.M.P SYSTEM

Ergo Grip® is now offering Picatinny rails for direct attachment to KeyMod slots. Designated KeyMod Universal Mounting Platform, these rails are perfect for attaching a section of Picatinny rail to KeyMod Slots where needed without having the bulk or weight of a full length rail. Machined from 6061-T6 aluminum and anodized matte black, KeyMod U.M.P. rail sections quickly and easily mount in KeyMod slots to provide a Picatinny attachment point. U.M.P.s come with all necessary mounting hardware and are available in multiple lengths as well as a cantilever version for maximum accessory mounting options.

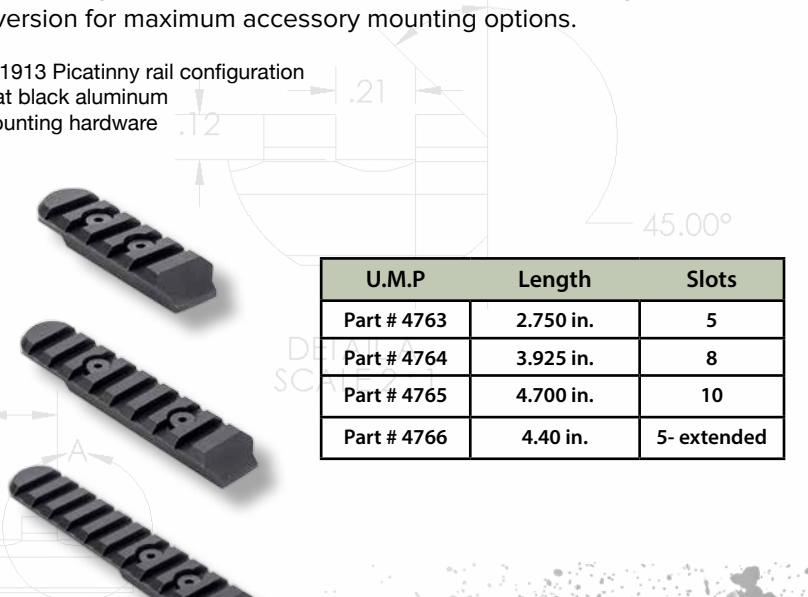

- Standard M1913 Picatinny rail configuration
- Anodized flat black aluminum
- Includes mounting hardware

ERGO KEYMOD SLING & BIPOD MOUNTS

ERGO KEYMOD VFG

The VFG is the most versatile available. As well as serving as a traditional vertical forward grip, it is small enough to be used like an angled forward grip, or even as a forward hand stop. Very sturdy design.

- Mounts flush to KeyMod Slots
- Black anodized 6061-T6 aluminum

*COMPATIBLE WITH #4238-BK MOSSBERG SHOTGUN KEYMOD FOREND

\$43.00

4231-BK

KEYMOD QD SLING MOUNT

QD Sling Mount attaches directly to KeyMod systems, reducing weight and bulk by eliminating the need to first use a section of Picatinny rail before attaching the accessory. The KeyMod Quick Detach Sling Mount is a low profile, lightweight, durable accessory designed to add functionality and versatility to any firearm using a KeyMod system. Machined from billet 6061-T6 aluminum and anodized matte black, it lets the user put a QD Sling Mount anywhere on a KeyMod system where two slots are available.

- KeyMod quick detach mount
- Attach QD sling swivel to KeyMod
- Black Anodized 6061-T6 Aluminum
- Low profile, light-weight, durable

*COMPATIBLE WITH #4238-BK MOSSBERG SHOTGUN KEYMOD FOREND

4239

\$26.75

KEYMOD BIPOD MOUNT

The new KeyMod Bipod mount is also designed to attach directly to KeyMod systems to reduce weight and bulk. Machined from 6061-T-6 aluminum and anodized matte black, it provides a bipod attachment point for any KeyMod handguard or forend and is contoured to work perfectly with Harris-Style bipods. All mounting hardware is included.

- KeyMod Bipod Mount
- Contoured to fit Harris-style bipods
- Black Anodized 6061-T6 Aluminum

4232

\$39.75

KEYMOD HAND STOP/BARRICADE STOP

The KeyMod Hand Stop/Barricade Stop improve performance, safety and comfort of any firearm using KeyMod handguards. The Ergo Grip KeyMod Hand Stop/Barricade Stop is a rugged, multipurpose accessory built for hard use and solid performance. Machined from billet 6061-T6 aluminum and anodized matte black, this multifunction accessory can be used as a hand stop, and as a barricade support device for rock solid shooting from vertical structures. The face of the stop has an aggressive machined surface for secure support or grip. All necessary mounting hardware is included.

- ERGO KeyMod Hand Stop/Barricade Stop in Black
- Aggressive textured front for enhanced traction on barricades and obstacles
- Low profile base also functions as a comfortable hand stop
- Black Anodized 6061-T6 Aluminum

*COMPATIBLE WITH #4238-BK MOSSBERG SHOTGUN KEYMOD FOREND

4230-BK

\$53.50

KEYMOD ENHANCED ANGLE GRIP

The Enhanced Angle Grip is a multifunction KeyMod accessory designed to improve shooting comfort and performance. The shape and size allow it to function as an angled forward grip improving the thumb-over hold, taking into account the natural angle of the human hand when the support arm is extended forward. The resulting improved weapon and recoil control allows for faster follow up shots and target transitions. The flat rear side also serves as a hand stop. Machined from 6061-T-6 aluminum and anodized matte black, the ergonomically correct finger grooves have an aggressive pattern machined into the face for a more secure grip.

- KeyMod Enhanced Angle Grip
- Black anodized 6061-T6 Aluminum
- Also can function as a hand-stop
- Enhanced thumb-over hold

*COMPATIBLE WITH #4238-BK MOSSBERG SHOTGUN FOREND

ERGO FULL COVER RAIL COVER GRIPS

Ergo Full Covers Grips are the industry standard for complete, rounded profile coverage of Picatinny rails. Full covers clip directly onto Picatinny rails to protect the shooter, rails, and equipment from damage. Like all Ergo rail covers, these can be cut to desired length to accommodate mounted accessories.

- Clips directly onto Picatinny rails for full rail protection
- Molded in Santoprene® to provide a rubbery grip surface for improved weapon control
- Protects unmounted rail areas from damage
- Prevents damage to gear, such as rappelling ropes, that may be abraded or cut by uncovered rail sections
- 4360 Covers 5 slots, 4361 Covers 10 Slots, 4362 Covers 15 Slots
- Black

HANDGUN GRIPS '1911' RUGER S&W BERETTA

www.ERGOGrips.NET

HANDGUN GRIPS

ERGO DELTA GRIP

The Delta Grip is the first truly ergonomic grip for J Frame revolvers. Designed for the most important part of the gun, the shooter, the Delta Grip was engineered to fit the natural point of aim and mechanics of the human hand, wrist and arm. The result is a grip with a superior natural point of aim, comfort and control.

DELTA GRIP S&W J FRAME

- Design Patent D734418
- Ergonomic design
- Better natural pointing and aiming
- Textured rubber is over molded a rigid polymer core for a comfortable, secure grip
- Fits round butt J Frames

DELTA GRIP RUGER LCR / LCR X FRAME -BLACK

- Same features as the S&W
- One piece design for a clean look and feel

ERGO WARRIOR 1911 GRIP

Warrior grips are unique in that they combine two different materials and textures for the best possible feel, control and durability. A rubber insert is surrounded by a rigid polymer frame. This gives the shooter a comfortable, very secure grip that is protected from damage.

- Constructed of rigid polymer frame with soft rubber insert molded in, providing enhanced weapon control even with the interfering presence of moisture and debris
- Duty and competition proven SUREGRIP™ feel on a square bottom design

ERGO XT/XTO 1911 GRIPS HARD RUBBER

XT grips are an excellent upgrade to any 1911 pistol. Aggressively textured hard polymer construction provides a positive grip in any situation, and durable for any condition.

- Heavily textured, minimally abrasive hard rubber design
- Fits Standard Model 1911 frames
- Thin profile attaches with standard grip screws
- Designed to accommodate ambidextrous safety options
- Available in tapered (4511), or square bottom (4510-BK) design for proper fit with mag wells

ERGO KEYMOD RAIL SHOTGUN FOREND

KeyMod forend for Mossberg 500 pump action shotguns. Slim in profile and lightweight, this machined aluminum forend has KeyMod accessory slots on the sides and bottom. Designed for performance and versatility, this upgrade to the venerable Mossberg 500 allows users to mount Picatinny rails or KeyMod accessories only where necessary, eliminating the bulk and weight of snag prone, Picatinny rail sections that are not in use. Machined from 6061-T6 aluminum and hard coat anodized matte black. Installation is simple and is the best way for shooters to add the KeyMod accessory attachment system to their Mossberg 500 shotgun. Simply remove the factory forend and replace with the Ergo Grip KeyMod version. Install Ergo Grip's WedgeLok or EZ Mount KeyMod Slot covers for an even more comfortable grip.

- Keymod forend for Mossberg 500
- Keymod rails at 3, 6, and 9 o'clock
- Extremely light-weight and low profile
- Black anodized 6061-T6 Aluminum
- 6 15/16" length

Based in Moriarty, New Mexico, ERGO Grip develops and manufactures small arms accessories for civilian, law enforcement and military use worldwide with the goal to provide all shooters with the finest firearms accessories available. ERGO Grip products are designed for the most important part of the firearm: the shooter.

ERGO GRIPS WARRANTY POLICY

All ERGO Grip products are made in the U.S.A. to the highest standards. ERGO Grip products are backed by a limited lifetime warranty. At the discretion of the company, ERGO Grip will replace or repair any ERGO product should it fail to work due to normal use. Refunds must be handled by the company who sold the product

Please contact Customer Service at 877-281-3783 for assistance.
